

# Imagine 2050 Visioning Survey

## Methodology, Strategy, & Results

Imagine 2050: A Vision for Central Massachusetts is a comprehensive planning initiative to create long-range strategies for the Central Massachusetts Regional Planning Commission’s 40 communities, located in Southern Central Massachusetts.

### Methodology

As part of the first phase of Imagine 2050, Visioning, a three-question survey was designed to collect input from residents throughout the Central Massachusetts region. The survey follows the framework of the Imagine 2050 plan, which mirrors the Sustainable Development Framework called the “Three E’s”: Economy, Environment, and Equity.

For each pillar, ten strategies were developed between November 2021 to March 2022 through three public meeting visioning sessions hosted through CMRPC’s Quarterly Commission Meetings. Participants were asked to answer the following questions:

- “What would you like our Central Massachusetts economy to look like in 30 years?”*
- “What would you like our Central Massachusetts environment to look like in 30 years?”*
- “What would you like equity in Central Massachusetts to look like in 30 years?”*

The most popular answers out of 500 comments were compiled to create the first draft of the visioning survey’s ranking activity. Language was then crafted to erase any inaccessible jargon. The final survey ranking questions are below:

## By 2050, I Imagine a Central Massachusetts with...

Three demographic questions were added to the survey to ensure understanding of how representative the survey respondent sample is in relation to the entire Central Massachusetts region. The survey requested respondents provide their place of residence, age, and race/ethnicity. All demographic data remains anonymous.

The survey was created as an introduction to Imagine 2050 to articulate the scope of a comprehensive regional plan to Central Massachusetts residents. The final survey took approximately 5-7 minutes to complete. The survey was designed to be accessible and respectful of the time and resources of our respondents. We found that this strategy was effective to include a diverse range of residents in our survey process. Final answers will be utilized to create the vision, objectives and goals of the plan.

## Strategy

CMRPC conducted a holistic community engagement campaign in hopes of spreading our Imagine 2050 Visioning Survey as far and wide as possible.

- A social media campaign through Instagram, Twitter, Linked-In, and Facebook was conducted throughout the period of the survey.
- The Imagine website served as a vessel for the digital version of the survey, which linked to the main CMRPC site (cmrpc.org) and numerous town hall pages.
- A link to the survey was published in local publications including Auburn News, Blackstone Valley Tribune, Charlton Villager, Killingly Villager, Putnam Villager, Southbridge News, Spencer New Leader, Sturbridge Villager, and Thompson Villager
- Paper survey boxes were distributed at town halls and libraries.
- Paper surveys & QR codes for the digital survey were distributed at events around the region including:

*Hope Day Celebration, Southbridge*  
*Sustainable Westborough Energy Fair*  
*Worcester County Food Truck Throw-Down*  
*Asparagus Festival, West Brookfield*  
*Millbury Food Truck Festival*  
*Worcester Tercentennial Celebration*  
*Grafton Farmers' Market*  
*Sturbridge Food Truck Festival and Craft Fair*  
*West Brookfield Farmers' Market*  
*Blueberry Festival, Charlton*  
*Spencer Food Truck Festival and Craft Fair*  
*Regional Environmental Council Block Party, Worcester*  
*Sturbridge Farmers' Market*  
*Beaver Brook Farmers' Market, Worcester*  
*Holden Days*

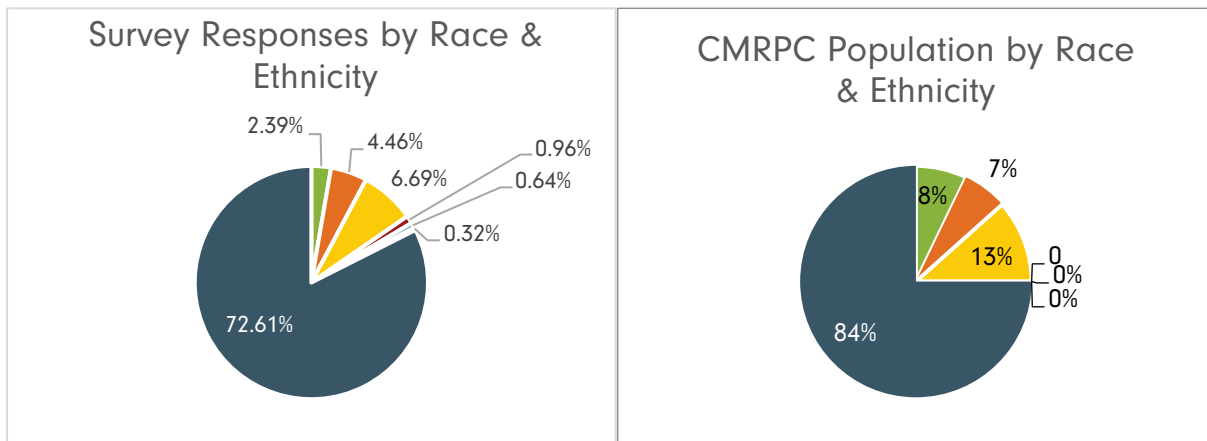

- Surveys were distributed at subregional and regional visioning sessions conducted between April and September. Visioning Sessions were also utilized to collect more free-form comments through open discussion:

*Rutland Planning Board Meeting*  
*Southbridge Library*  
*Community Harvest*  
*Shrewsbury Youth & Family Services*  
*Regional Environmental Council*

## Results

75 respondents chose not to disclose their race and ethnicity. From those who disclosed their race/ethnicity, the pie chart on the left and table summarize the percent of surveys we received from each race/ethnicity. We compared these results with the demographic breakdown of our 40-community region within Central Massachusetts, which is displayed through the pie chart on the right and the table. The CRMPC population by Race and Ethnicity data is sourced through the 2022 American Community Survey.

	# surveys	% of surveys	CRMPC %
Asian	15	2%	8%
Black or African American	28	4%	7%
Hispanic or Latino	42	7%	13%
Middle Eastern or North African	6	1%	N/A
Native American or Alaska Native	4	1%	0%
Native Hawaiian or other Pacific Islander	2	0%	0%
White or Caucasian	456	73%	84%
Prefer not to answer	75	12%	

Approximately 10% of respondents chose not to disclose their age. Also, 19 respondents were under the age of 18. For respondents under the age of 18, we collected and utilized their responses but did not include their age in the chart below.

	% of surveys	% of CMRPC region over 18
18-29	12.64%	18%
30-39	16.26%	16%
40-49	14.12%	18%
